## REDUCTION OF FARM MORTGAGES

Facts About the Counties in the Fourth Congressional District.

Silver and Farm Products--Figures Showing that the Price of One Has Absolutely Nothing to Do with the Other.

Republican Promises Have Been Redeemed and Prosperity Has Already Set in Under the McKinley Administration. Market Quotations Tell the Tale.

The stock argument of the advocates of free silver coinage at a ratio of 16 to 1, in the last campaign, was that a decrease in the value of silver always caused a corresponding decrease in the price of farm products, and particularly wheat. The following comparisons in the price of wheat and other farm products, and the value of silver in 1896 and 1897, disprove these claims absolutely.

The prices on farm products herein given are taken from the Indianapolis market quotations, and the prices of silver from the general market quotations:

INDIANAPOLIS MARKET QUOTATIONS.			
July 26, 1896.	Wheat, No. 2 Red	per bushel.	\$0.55 1-2
July 26, 1897.	Wheat, No. 2 Red	"	.73
	Advance	"	.17 1-2
	Percentage increase in price.	"	.31 1-2
July 26, 1896.	Wool	per pound.	\$0.12
July 26, 1897.	Wool	"	.16
July 26, 1896.	Cattle	"	\$4.00 @ 4.25
July 26, 1897.	Cattle	"	4.60 @ 4.85
July 26, 1896.	Hogs	"	3.30 @ 3.50
July 26, 1897.	Hogs	"	3.65 @ 3.80

SILVER BULLION.			
July 26, 1896.	Silver bullion	per ounce.	\$0.69 3-8
July 26, 1897.	Silver bullion	"	.53 7-16
	Value of silver in standard dollar, July 26, 1896.	"	.59
July 26, 1897.	Silver bullion	"	.45 6-10
	Value of silver in standard dollar, July 26, 1897.	"	.45 pct.
	Decline in price of silver	"	.14 pct.

Wheat advanced in price in 1897, per bushel, .1800. Sheep advanced in price, per pound, in 1897, .33. Silver declined in price, per ounce, in 1897, .15.

These figures show plainly that the price of farm products has advanced during the last year, while the value of silver has continued to decrease, and proves conclusively that the price of silver has absolutely no effect on the price of wheat and other farm products.

## REDUCTION OF FARM MORTGAGES IN THE FOURTH DISTRICT.

Another claim of the advocates of the free and unlimited coinage of silver, and the calamity-shriekers in the campaign of 1896, was that on account of the low price of farm products, which they claimed to be due to the depreciation in the value of silver, a majority of farmers were becoming burdened with debt, and that the number and amount of farm mortgages were being increased each year.

The following figures, taken from the records in the offices of the recorders of the counties comprising the Fourth congressional district, show that the people are paying mortgages a great deal more rapidly than they are giving mortgages.

COUNTY	FARM MORTGAGES GIVEN		FARM MORTGAGES PAID	
	1897	1896	1897	1896
Bartholomew	\$188,314	\$181,755	\$774,704	\$191,358
Brown	13,643	21,926	9,560	12,796
Dearborn	79,020	153,743	104,700	79,795
Decatur	159,633	175,911	146,506	32,200
Jackson	98,471	129,968	133,260	132,757
Jefferson	112,065	116,800	132,283	56,300
Jennings	106,300	109,855	80,776	24,715
Ohio	115,039	24,217	12,533	29,888
Ripley	143,256	117,441	100,651	117,337
Switzerland	70,494	55,666	48,298	33,592
Total	\$980,235	\$1,089,282	\$1,533,371	\$705,133

The mortgages on farms given in the 10 counties for the year ending June 1, 1897, were \$980,235, and for the same period the farm mortgages paid off were in amount \$1,533,371.

For every dollar of mortgages placed on farms in the Fourth congressional district for the year ending June 1, 1897, there was \$1.56 paid. Reduction of farm mortgages over half a million dollars.

The above figures show that the claim of the free silverites concerning the increase of indebtedness on the farms, is as unfounded in fact as the claim that the decrease in the value of silver shows a corresponding decrease in the price of wheat.

## EXCESS OF RECEIPTS OVER EXPENDITURES.

During the 44 months of the Cleveland administration, from July 1, 1893, to March 1, 1897, only seven months showed a surplus of receipts over expenditures. The aggregate amount was \$21,700,014.

Under the McKinley administration, from March 4 to July 1, 1897, the excess of receipts over expenditures amounted to \$29,082,847. These figures show that the excess of receipts over expenditures during four months of a Republican administration amounted to \$7,382,833, more than was shown during 44 months of a Democratic administration.

The excess of receipts over expenditures, as shown by the treasury report during each of the first four months of the McKinley administration, was as follows:

March	\$ 9,064,664
April	5,740,038
May	688,131
June	13,610,014
Total	\$29,082,847

## PER CAPITA CIRCULATION.

The per capita circulation in the United States June 30, 1896, was \$21.35.

The per capita circulation in the United States June 30, 1897, was \$22.80, an increase of \$1.45 per capita.

## THE COINAGE OF SILVER DOLLARS.

Another argument of the free silver shouters in the campaign of 1896 was that the Republican policy, or gold standard, as they termed it, meant the disappearance of the silver dollar. From July 1, 1896, to July 1, 1897, there were coined 21,203,701 standard silver dollars, as follows:

1896	1897
January	\$1,812,000
February	1,340,000
March	1,400,200
April	1,400,000
May	1,490,000
June	1,475,101
July	\$1,062,000
August	2,700,100
September	2,350,000
October	1,914,000
November	1,700,350
December	1,700,350

## LOW VALUE OF SILVER.

On July 28, 1897, silver reached the lowest point in value in its history.

On that date silver per ounce was quoted at 57 1/2 cents.

Value of silver in standard dollar 44 6-10 cents.

## REPUBLICAN PROMISES REDEEMED.

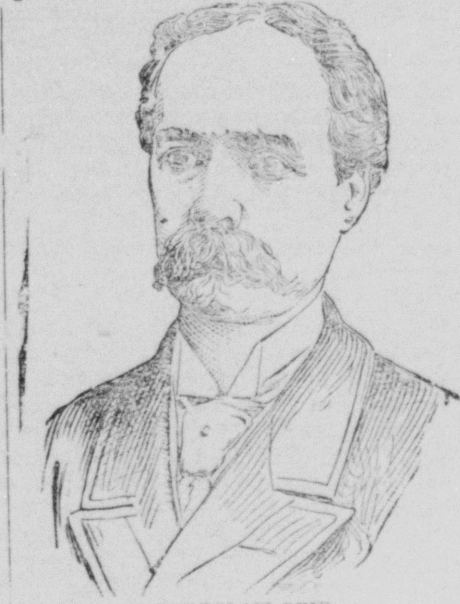

The logic of the above figures and the fact that there is a decided improvement in every branch of business, proved conclusively that the Republican policy is right, and that the pledges of the Republican party made during the last campaign are being rapidly redeemed. Republican prosperity has already set in under the McKinley administration, and there is every evidence that we are entering upon an era of better business and general prosperity in this country.

If every voter in the Fourth district will study carefully the above figures and will consult his personal interests, there can be but one conclusion reached in his mind when he enters the election booth on Aug. 10, and that conclusion will be to vote for the man who represents the principles and policies of the Republican party, Major Charles W. Lee.

## CALLED ON SHERMAN.

Special Ambassador Reid Visits the Secretary of State.

New York, Aug. 3.—Whitehall Reid called upon Secretary Sherman at Ananasett, Long Island yesterday. Mr.

Sherman will remain at Ananasett another week. Mr. Reid will start on Saturday to visit the president at his summer home, on Lake Champlain, and will make a full report to him of his special mission.

## REVIEWING THE TROOPS.

President McKinley Compliments Colonel McKibben of the Twenty-First Infantry. HOTEL CHAMPLAIN, N. Y., Aug. 3.—The review of the Twenty-First United States Infantry under the command of Colonel McKibben, held on the hotel grounds, and the reception of the guests of the hotel, were the chief events of the day for President McKinley and party.

The weather was perfect, clear and dry, but the sun was too warm for the president and his fellow-guests. After complimenting Colonel McKibben upon the appearance of his men, the president intimated that the repetition of the military event today would be agreeable.

## FREIGHT BLOCKADE.

Gold Hunters Unable to Have Their Supplies Carried to the Interior.

VICTORIA, B. C., Aug. 3.—The steamer Queen has arrived from the north. She brought no late news from the mines, but reports that 400 people are camped at Skagway and 50 at Dynes. They are unable to have goods taken into the lakes as the packers cannot handle the business. There will be a terrible crash there when the boats that left here after the Queen, seven in number, arrive. Not half of the men will get away from Skagway by this year and even with the large number of horses on the way up it will be impossible to handle the freight.

## TO OUST THE MAYOR.

Instructions the Attorney General to Bring Quo Warranto Proceedings.

COLUMBUS, O., Aug. 3.—Governor Bushnell has instructed the attorney general to bring suit in quo warranto to oust Mayor Ganson of Urbana, and Sheriff McClain of Champagne county from office for alleged negligence in the performance of their official duties in failing to prevent the lynching of the negro rapist, Chick Mitchell. This action on the part of the governor is in response to demands from the colored people of the state. The suit was filed in the supreme court today.

## Opposed to Sympathy Strike.

PEORIA, Ill., Aug. 3.—Grand Master Sargent of the Brotherhood of Locomotive Engineers is strongly opposed to the suggested sympathy strike. He said: "If we go out on a sympathy strike we cut off our own resources and the opportunity of contributing, and may lose our jobs besides. As it is now we can best show our sympathy by keeping at work ourselves and contributing liberally to help support the miners in their heroic struggle."

When a man is ruined and there is no help for it, a good wife and a good child are left to him. But no man, who is a man, wants to put his wife to this extremity.

A woman in her gentle nature suffers with the husband and the husband should prove at last a failure—broken in purse and in spirit. Back of all business failures lies ill-health. No man who is suffering from brain fog, nervous prostration and debility, due to impure blood and a disordered digestion can long succeed in business. Every woman should make it her duty to see that her husband takes proper care of his health.

The best medicine in all the world for hard-worked business men is Dr. Pierce's Golden Medical Discovery. It is medicine for both body and mind. It makes the digestion good, the liver active, and the appetite keen. It fills the blood with the life-giving elements that build new tissues. It invigorates and purifies. It is the one great blood-maker and flesh-builder. There's nothing in the market "just as good."

A. L. Purdy, Esq., of Pittsford, Caldwell Co., Ky., writes: "I herewith inclose a recent stamp to pay postage on one of your cloth-bound Medical Advertisers. I know your book to be a good one. I have suffered several years with liver complaint when I read about your 'Golden Medical Discovery' in one of your books. After using a few bottles of the 'Discovery' and three vials of the 'Pleasant Pellets' I was completely cured."

One copy of a good, practical, medical work is worth more in a home than a thousand words of fiction. Dr. Pierce's Common Sense Medical Adviser is the best home medical book extant. It contains 108 pages and three hundred illustrations and is written in plain, everyday language that any one may understand. Over a million women own copies of it and 680,000 of them paid \$1.00 each for their copies. A new and larger edition will be given away absolutely FREE. If you want a copy in a paper cover, send twenty-one one-cent stamps, to cover cost of mailing only, to the World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y. If you desire a fine French cloth binding, send 10 cents extra—thirty-one cents in all.

One bullet took effect, making a slight scalp wound above the left ear.

Cavin ran a short distance down the railroad tracks and then slashed his own throat with a razor, inflicting frightful wounds, from which his death is almost certain.

Where the hitch occurred we have  
been unable to learn, but were reliably  
informed by those in a position to  
know that the prospects are excellent  
for having the road repaired in a very  
short time and that in all probability  
it will be in operation by September 1st.

**John P. McLean's Great Newspaper.**

Without a single exception, there is no paper beyond no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John P. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes it incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

We would like to look into the pleasant face of some one who has never had any derangement of the digestive organs. We see the drawn and unhappy faces of dyspeptics in every walk of life. It is our national disease, and nearly all complaints spring from this source. Remove the stomach difficulty and the work is done.

Dyspeptics and pale, thin people are literally starving, because they don't digest their food. Consumption never develops in people of robust and normal digestion. Correct the wasting and loss of flesh and we cure the disease. Do this with food.

The Shaker Digestive Cordial contains already digested food and is a digester of food at the same time. Its effects are felt at once. Get a pamphlet of your druggist and learn about it.

**Two Pension Rulings.**

The two recent rulings of the commissioner of pensions indicate a purpose to put an end to the delays which have been much complained of during the past few years. One of these requires the boards of medical examiners to forward their reports of cases within three days of the time of the examination. It is complained that such officials have neglected to make such important reports from one to eight months. The other ruling will tend to facilitate the adjustment of claims when the claimant and his agent, through ignorance, attribute the disability to one cause and the examining board finds that it is due to another. When such disagreements exist the bureau cannot grant a pension. The commissioner directs that the claimant be notified of the finding of the examining board to the end that he may make application in accordance with the report of the medical examiners.

**COINAGE OF MONEY**

Report of the Director of the United States Mint.

**NO SILVER DOLLARS COINED**

Public Debt Statement—Commissioner General Powderly—Paid For the Lysching of Italians—Receipts and Expenditures For the Month of July—He Is Credited to Ohio.

WASHINGTON, Aug. 3.—The statement issued by the director of the mint shows that during July, 1897, the coinage executed at the United States mints amounted to \$870,850, as follows: Gold, \$377,000; silver, \$299,000; minor coins, \$30,850. No standard silver dollars were coined.

It is stated, however, that there is no significance in this fact, as all of the mints were closed from 15 to 20 days during July for repairs to the machinery and overhauling, and in consequence the coinage was unusually light. In explanation of the fact that no standard dollars were coined it is said the supply on hand is sufficient for all needs and further that the stock of minor coins has run very low. In order to meet the present and prospective demands of trade the mints were occupied in coining subsidiary silver and probably would so continue through the month of August. In addition there has accumulated a large stock of uncurrent subsidiary silver which must be recoined as promptly as possible. During the month of August the large accumulation of gold bullion at San Francisco, which now amounts to about \$4,500,000, will be worked off as rapidly as the capacity of the mint will permit. The coinage of standard silver dollars probably will be resumed about Sept. 1.

**Receipts and Expenditures.**

WASHINGTON, Aug. 3.—The comparative statement of the government receipts and expenditures for the month of July shows the total receipts to have been \$39,027,364, and the disbursements \$50,109,908, leaving the excess expenditures over receipts \$11,073,544. This deficit is accounted for by abnormally heavy expenditures incident to the beginning of the new fiscal year. As compared with June the receipts were increased \$2,442,656, and the disbursements were increased by \$37,166,214.

**Public Debt Statement.**

WASHINGTON, Aug. 3.—The public debt statement issued yesterday shows the debt less cash in the treasury at the close of business on July 31, was \$993,446,646, an increase during the month of \$6,790,560, which is accounted for by a corresponding decrease in the cash in the treasury. This decrease is in consequence of exceptionally heavy disbursements. The debt, independent of the cash, was decreased by \$539,610.

**Paid For the Italians.**

WASHINGTON, Aug. 3.—The state department has finally closed another international incident by paying over to Count Vinci, the Italian charge here, the sum of \$6,000 as indemnity for the doing to death by a mob of three Italian subjects. The men were Lorenzo Saldano, Salvatore Areno and Giuseppe Venturoli. They were taken out of jail at Hahville, La., about a year ago and lynched.

**PROFESSORS REMONSTRATE.**

Reconsideration Asked For in the Case of President Andrews.

PROVIDENCE, Aug. 3.—A remonstrance has been issued by the professors at Brown University and sent to the members of the corporation. It protests against the action of the latter body with reference to President Andrews and asks for a reconsideration of the whole matter. The document lays stress on the importance of freedom of thought and speech, especially in a university where there should be no such thing as political prejudice. The fact is emphasized that there has been a remarkable increase in the number of students since Dr. Andrews became president and the remonstrance is signed by a majority of the professors.

**Professor Langley.**

PARIS, Aug. 3.—Professor Langley of the Smithsonian institution took his seat for the first time in some years at a meeting of the Academy of Science yesterday. The presidents of the academy reviewed at some length Professor Langley's work in the department of physics and M. Berthelot greeted him on behalf of French Aeronauts.

**Murderer Harvey Sentenced.**

WASHINGTON, O., Aug. 3.—James Harvey, who was on July 10 convicted of the murder of his wife, Ida, on Dec. 18 last, was sentenced yesterday to the penitentiary for life by Judge Vaneport. A motion for a new trial was overruled. The case will be carried to the higher courts, but it is not believed he will ever be granted a reversal.

Every part of our body is momentarily wearing out and being built up again. This work is done by the blood. Keep this vital fluid pure with Dr. Bull's Pills and health will prevail.

## Sick Headache.

Neuralgia and Extreme Nervousness.

EVER since I was eighteen years old until I learned of Dr. Miles' Restorative Remedies, I suffered from sick headache and extreme nervousness and dyspepsia. In time heart disease developed. I was treated by several doctors with no relief. Severe palpitation with pain in left breast, shortness of breath, and smothering spells made me most miserable. I procured Dr. Miles' Restorative Nervine and New Heart Cure and took them alternately as directed. Improvement began at once and increased so rapidly that inside of six months I increased thirty six pounds in weight. All pain in the heart is gone, and the nervousness has wholly left me."

**Worth Remembering.**

A farmer speaking of caterpillars writes the following to an exchange, which at least is worthy of some consideration: "Every day I hear of caterpillars destroying whole orchards, and there is nothing to dispose of more easily. I bore a hole in the tree deep enough to reach the sap, fill it up and then plug it up. The sap takes up the sulphur to every branch and twig and the caterpillars at once die. I have never known a tree being injured by it and I have pursued the course for years."

**E & R PROSPECTS.**

A Crowd of Disappointed Laborers at the Depot this Morning.

At 7 o'clock this morning the men who were hired yesterday and some others, about forty in all, gathered at the E. & R. station to begin the work of repairing the line. No one was there to take charge of them or direct their work and they gradually left. Thomas Newkirk who was here yesterday hiring the men left on No. 2 via North Vernon for Greensburg for the purpose of having the engine and construction train brought here this morning.

Where the hitch occurred we have been unable to learn, but we are reliably informed by those in a position to know that the prospects are excellent for having the road repaired in a very short time and that in all probability it will be in operation by September 1st.

### John P. McLean's Great Newspaper.

Without a single exception, there is no paper beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John P. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

### Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century and today stands at the head. It never disappoints. Free trial bottle at W. F. Peter's, Drug Store.

### Two Pension Rulings.

The two recent rulings of the commissioner of pensions indicate a purpose to put an end to the delays which have been much complained of during the past few years. One of these requires the boards of medical examiners to forward their reports of cases within three days of the time of the examination. It is complained that such officials have neglected to make such important reports from one to eight months. The other ruling will tend to facilitate the adjustment of claims when the claimant and his agent, through ignorance, attribute the disability to one cause and the examining board finds that it is due to another. When such disagreements exist the bureau cannot grant a pension. The commissioner directs that the claimant be notified of the finding of the examining board to the end that he may make application in accordance with the report of the medical examiners.

### COINAGE OF MONEY

#### Report of the Director of the United States Mint.

### NO SILVER DOLLARS COINED

Public Debt Statement—Commissioner General Powderly—Paid For the Lysching of Italians—Receipts and Expenditures For the Month of July—He Is Credited to Ohio.

WASHINGTON, Aug. 3.—The statement issued by the director of the mint shows that during July, 1897, the coinage executed at the United States mints amounted to \$670,850, as follows: Gold, \$377,000; silver, \$260,000; minor coins, \$33,850. No standard silver dollars were coined.

It is stated, however, that there is no significance in this fact, as all of the mints were closed from 15 to 20 days during July for repairs to the machinery and overhauling, and in consequence the coinage was unusually light. In explanation of the fact that no standard dollars were coined it is said the supply on hand is sufficient for all needs and further that the stock of minor coins has run very low. In order to meet the present and prospective demands of trade the mints were occupied in coining subsidiary silver and probably would so continue through the month of August. In addition there has accumulated a large stock of uncurrent subsidiary silver which must be recoined as promptly as possible. During the month of August the large accumulation of gold bullion at San Francisco, which now amounts to about \$4,500,000, will be worked off as rapidly as the capacity of the mint will permit. The coinage of standard silver dollars probably will be resumed about Sept. 1.

### Receipts and Expenditures.

WASHINGTON, Aug. 3.—The comparative statement of the government receipts and expenditures for the month of July shows the total receipts to have been \$39,927,364, and the disbursements \$50,100,908, leaving the excess expenditures over receipts \$11,073,544. This deficit is accounted for by abnormally heavy expenditures incident to the beginning of the new fiscal year. As compared with June the receipts were increased \$2,443,656, and the disbursements were increased by \$27,166,214.

### Public Debt Statement.

WASHINGTON, Aug. 3.—The public debt statement issued yesterday shows the debt less cash in the treasury at the close of business on July 31, was \$993,446,646, an increase during the month of \$6,790,560, which is accounted for by a corresponding decrease in the cash in the treasury. This decrease is in consequence of exceptionally heavy disbursements. The debt, independent of the cash, was decreased by \$330,610.

### Paid For the Italians.

WASHINGTON, Aug. 3.—The state department has finally closed another international incident by paying over to Count Vinci, the Italian charge here, the sum of \$6,000 as indemnity for the doing to death by a mob of three Italian subjects. The men were Lorenzo Salardini, Salvatore Arena and Giuseppe Ventrella. They were taken out of jail at Hannville, La., about a year ago and lynched.

### PROFESSORS REMONSTRATE.

Reconsideration Asked For in Case of President Andrews.

PROVIDENCE, Aug. 3.—A remonstrance has been issued by the professors at Brown University and sent to the members of the corporation. It protests against the action of the latter body with reference to President Andrews and asks for a reconsideration of the whole matter. The document lays stress on the importance of freedom of thought and speech, especially in a university where there should be no such thing as political prejudice. The fact is emphasized that there has been a remarkable increase in the number of students since Dr. Andrews became president and the remonstrance is signed by a majority of the professors.

### Professor Langley.

PARIS, Aug. 3.—Professor Langley of the Smithsonian institution took his seat for the first time in some years at a meeting of the Academy of Sciences yesterday. WILMINGTON, O., Aug. 3.—James Harvey, who was on July 10 convicted of the murder of his wife, Ida, on Dec. 18 last, was sentenced yesterday to the penitentiary for life by Judge Vanpelit.
